ORDER

In the context of formulation of the Eleventh Five Year Plan (2007-2012), it has been decided to set up a Working Group on Steel. The Terms of Reference and Composition of the Working Group will be as follows:

I. Terms of Reference

(i) To review the performance and present status and growth of domestic Iron & Steel Industry keeping in view the emerging trends, strength and weakness and changing economic scenario in the country.

(ii) To recommend measures for making the Indian Steel Industry internationally competitive in terms of quality and cost of production along with measures for achieving the same.

(iii) To review productivity issues and economics of the steel production in 'Secondary Steel Sector' including mini steel plants and sponge iron and to recommend measures to make it less susceptible to downturn in industry.

(iv) To assess the relevance of new and emerging technologies for iron and steel production in the Indian context and make recommendations for introduction of promising technologies both in Public and Private Sector.

(v) To assess the requirements of physical inputs, as well as investments in the complementary sectors like mining, power, transport, refractories etc. during the period. Extent of financial participation by Steel Industry in creation of railway infrastructure as envisaged in National Steel Policy 2005.

(vi) To assess the requirement of coking coal, likely supplies from indigenous sources and the quantum of imports, year wise upto 2011-2012.

(vii) To suggest a policy framework for achieving the targets including increased output from green field projects and existing main producers through expansion, modernization and diversification.

(viii) To recommend a policy for production, imports and export ferro-alloys e.g ferro-manganese, ferro-silicon, ferro-chrome, etc. keeping in view of the availability from domestic sources and estimated demand for these items upto 2011-12.

contd. 2
(ix) To review the present status and future prospects of manufacture and supply of important inputs and raw materials by indigenous producers.

(x) To review the technological trends in steel production and to suggest policy measures and institutional mechanism to promote R & D in the steel industry.

(xi) To review broadly the status of environment protection pollution control and safety measures and suggest measures for improvement.

(xii) To assess the manpower development need of the industry and to recommend the strategy to meet the same. To assess the level of direct as well as indirect employment generation during 2007-2012 in iron and steel industry if the projected level of investment fructify.

(xiii) To recommend such other measures as the Working Group may consider relevant.

II. Composition of the Working Group
